

NORTH KITSAP TRAILS

Let's start planning our water based trails for kayaking in North Kitsap!

This guide will assist you in the field when locating and identifying existing and potential trails. It gives you questions to ask yourself and places to write things down. Attach this guide to a map showing what part of the trail it pertains to!

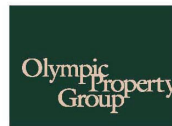

It would be best to take a small section of the trail area at a time (1 - 2 miles).

Make it manageable!

This Trail Finder's Survey is not inclusive of all issues that will need to be addressed but will help with the basics.

Happy Trails!

Trail Finder's
Survey

WATER ROUTES & ACCESS

February, 2008

What section does this pertain to?

1. Have the mapped kayak areas been field verified?

Yes No

2. If so, which ones?

(describe location or give coordinates)

3. Is it accessible? Steep bank? Low bank? Obstructions? Forested? Cleared? Streams? Wetlands? Sandy Beach? Rocky Beach? (describe)

4. Is there parking at or near launch site?

Yes No

5. What kind? (road-side, existing parking lot, pull-off area)

6. How much room for cars is there? (give estimate)

7. Are there high tide or low tide issues?

8. What are the unique habitat features?

9. Is it a public access point?

Yes No

10. Are there neighbors that will need notification?

Yes No

11. Have public property rights been verified? (explain)

12. Any hazards to be aware of? (If yes, describe what kind and where)

13. Is there a private road that can be utilized?

Yes No

14. What is the name of the private road?

15. Who needs to be asked for permission?

16. Explain the type of construction you think this put-in/take-out point will need:

17. Other comments?

Scribble Pad

Don't forget to attach a map & highlight the section you are working on.
